Personal Profile

I hold a BSc in Environmental and Land Planning Engineering from Politecnico of Milan, where I cultivated a passion for problem-solving and innovation. After six years in the UK, honing leadership skills in hospitality and transitioning into tech through an intensive Full Stack Developer bootcamp, I am now relocating to Italy. Driven by a passion for AI and machine learning, I'm currently deepening my Python skills through a dedicated course. I'm eager to leverage this knowledge, combined with my engineering background, to develop scalable and impactful tech solutions.

Technical Skills

Programming: JS & TS, Python	Frameworks & Libraries: React, Next, Node, Express, jQuery
Database: PostgreSQL, NoSQL, GraphQL	Tools & Version Control: Git, Bash, VSCode, PyCharm
Testing: Jest, Vitest, Playwright, Supertest	Design & Prototyping: Figma, GIMP
APIs: HTTP, Rest	Languages: Italian (Native), English (C1, 6 years in the UK), Spanish (B1)
